Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) Responsive to communication(s) filed on _____.
- 2a) This action is **FINAL**. 2b) This action is non-final.
- 3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

1. This action is responsive to communications: Amendment A filed 09/20/2004.
2. Claims 2 and 3 have been cancelled.
3. Claims 1 and 4-13 are pending in the case. Claims 7-13 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 6/23/2004.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 102

1. Claims 1 and 4-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Sakimoto, US patent number 4,678,710. Sakimoto discloses a coated particulate materials, such as potassium carbonate and other water-soluble materials, wherein the coating controls the dissolving of the material and prevents conglomeration during manufacturing and storage (see Column 1, lines 30-50; Column 3, lines 1-6; Column 4, lines 65-68 and Column 5, lines 1-16). Note that Sakimoto's disclosure that the reference controls the dissolving of the particulate material is considered to be the same as reducing the materials reacting with moisture, acids and bases. Potassium carbonate in dry particulate form as disclosed by Sakimoto is inherently anhydrous. Sakimoto discloses that the coating is present at 1-15% based on the amount of granules, which would encompass the 1-5% as instantly claimed, and that the thickness should be selected based on the substance being coated and the desired properties for that substance (see Column 6, lines 11-16 and lines 41-46). Since potassium carbonate is a known feed supplement as evidenced by Armand products company Potassium Carbonate Handbook (see page 5, Food column) and Sakimoto discloses that the coating is for use on particulate materials used as medicines (see Column 1, lines 31-35), the reference of Sakimoto is interpreted to include a coated feed supplement. In addition it is noted that the recitation of the intended use of the

claimed invention must result in a structural difference between the claimed invention and the prior art in order to patentably distinguish the claimed invention from the prior art.

Applicant's arguments filed September 20, 2004 with respect to claims 1 and 4-6 have been fully considered but are moot in view of the new ground(s) of rejection. In addition, on page 1 and 2 of the response, applicant states that the amended claim 1 recites a hydrogenated fat coating and that the coating is solely fat, however these recitations are not found in the amended claims therefore the argument is not found persuasive in regard to this matter.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

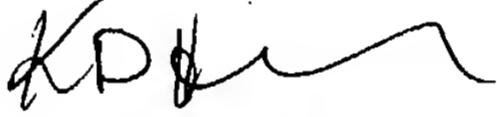

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
